Greetings:

The Indigenous Centre for Cumulative Effects (ICCE) is pleased to launch the revised Community Funding Program -CFP. We invite Indigenous communities and organizations to apply for funding to support cumulative effects initiatives.

The main objective of ICCE's Community Funding Program (CFP) is to support community-led projects to help build and enhance the capacity of Indigenous communities for cumulative effects management, monitoring, and assessment in their territories, using a Two-Eyed Seeing approach. There are two streams of funding:

1) Developing Capacity – to support hiring and training in-house staff to better understand cumulative effects and develop or implement a cumulative effects plan for their community.

2) Enhancing Capacity– Enhance existing cumulative effects expertise.

The current envelope for this round of funding is \$2.5 Million available. This amount covers the full two fiscal years of 2023–2024 and 2024–2025. The level of funding for each application will be determined on a case-by-case basis up to a maximum of \$350,000.00 on two years.

For more information, please visit [our website](#).

In good spirit,

The Community Funding Program Team
